

HALLOWEEN STAMPS

by [Kim Werker](#)

HOW TO USE THE TEMPLATES:

1. Print this page.
2. Trace the image you'd like to use (tracing paper is ace, but if you can manage to see the image through a plain old sheet of paper, that'll do, too!)
3. Transfer the traced image onto rubber or your preferred medium for carving stamps.
4. Carve the stamp.
5. Delight your friends and your kids' friends with spooky goodness!

If you're new to stamp carving, learn everything you need to know in [Stamp Camp!](#) It's a video-based online class you can complete in an afternoon, and you can ask me questions anytime you want. Plus, get more templates to practice with, learn all about the tools you need and how to use them, and more!
